

Singapore Airshow 2026

German Pavilion

As individual exhibitor or within the German Pavilion - Find your ideal solution to participate in leading international trade fairs.

Your participation options at a glance

As German representative of the organizer, ECM is your first point of contact for all the listed trade fairs. We will be happy to advise you on all matters relating to your participation options as exhibitor within the German Pavilion or as an individual exhibitor.

German Pavilion

Within the German Pavilion you have the ideal opportunity to present your company in a cost-effective and high-quality way.

ECM is responsible for the entire preparation and organization of the German Pavilion and is your first point of contact for all questions.

ECM Pavilion

Not all trade fairs have a German Pavilion that is funded by the Federal Ministry for Economic Affairs and Climate Action (BMWK).

For this reason, ECM organizes additional German Pavilions without federal funding for all exhibitors from the aerospace industry.

ECM is responsible for the entire preparation and organization of the "Private German Pavilions" and is your first point of contact for all questions.

Individual Exhibitor

As an individual exhibitor, you can implement your individual stand concept with your own stand construction. For smaller stands, the organizer usually offers a basic package as a more cost-effective option.

ECM is responsible for the first contact with the organizer and takes care of the best possible placement for your booth. We are also happy to support you with further questions regarding your trade fair participation.

What is the German Pavilion?

The **German Federal Ministry of Economic Affairs and Climate Action (BMWK)** supports official participations in the Federal Republic of Germany's international trade fairs and exhibitions programme. As an exhibitor, German companies can present their products and services under the "Made in Germany" brand in a **cost-effective** and **high-quality** way.

This federal participation is initiated and accompanied by the **German Aerospace Industries Association**.

ECM is responsible for the organization of the German pavilion and is your contact for all questions relating the participation of the trade fair.

Your participation options within the German Pavilion

Design example

1. Turnkey exhibition stand with basic equipment

Subject to change and errors

Your individual design options

As part of the general stand design, you have the opportunity to implement your corporate design and present your products and services in the best possible way.

For this purpose we offer you various additional services:

- ✓ Wall graphics (professionally printed and mounted)
- ✓ Additional furniture, monitors, additional power supply, etc.
- ✓ Presentation options for your exhibits

You can easily order all additional services via our online shop.

If required, we will also be happy to provide you an individual offer for your stand design within the framework of the basic design specified.

Please note that the additional services are not included in the package price and will be charged separately.

Benefits by participating within the German Pavilion

Your benefits and included services

- ✓ Participation options in a high-quality stand design at low costs
 - ✓ Good visibility due to the size and stand design of the German Pavilion

 - ✓ Organization of delegations and events, e.g. embassy reception (depending on the trade fair and the currently regulations)
- ✓ Public communication in various media
 - ✓ Accompanying measures: Web Presence www.german-pavilion.com + exhibitor brochure

Friendly local staff to support our exhibitors and visitors

Snacks and Drinks during the fair

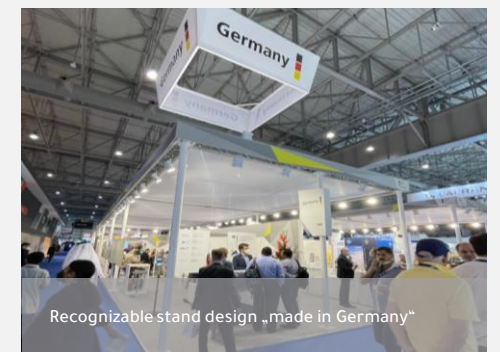

General meeting areas (open / closed, depending on design concept)

Experienced project management by ECM

Embassy Reception (depending on individual conditions)

Recognizable stand design „made in Germany“

How do I register for the trade fairs?

Foreign Trade Fair Participation Programme of Germany

- ✓ To register for all trade fairs, please register your company once and without any obligation at: [German Pavilion - Online-Registration \(german-pavilion.com\)](http://german-pavilion.com). This step is only necessary once and is valid for all future trade fair participations.
- ✓ Once your accreditation has been activated (1-2 working days), you can register online for your foreign trade fair participation of Germany programme with immediate effect.

Individual exhibitor / ECM Pavillion

- ✓ Please send us an e-mail and we will send you all the relevant documents for the participation.
